Anchor Bolts Sec. R403.1.6		½" Diam. Bolts Max 6' C.C. Max @ Corners	N/A

1. All foundations designed and constructed must comply with 780 CMR, 8<sup>th</sup> Edition, Sec. R401 Foundations, Sec. R402.2 Concrete.
2. Any foundation designed with finished basement shall be waterproofed by approved methods.
3. The holder of a foundation permit may proceed without any assurances that a building permit for the entire structure will be issued.
4. If a permit is not granted or issued by this office within six (6) months, the permit holder at his/her expense must return property to original state after receiving written notice. Extensions may be granted by written request.
5. Building permits will be issued after a Certified Plot Plan/Foundation As-Built has been submitted for review and accepted by the Building Inspector. The Building Inspector reserves the right to set minimum review period of up to seven days.
